

DEVELOP YOUR

# EXPORT COMPLIANCE PROGRAM

**December 15, 2023 | 9:00 a.m. - 3:30 p.m.**

Online | \$345/per participant

A comprehensive Export Compliance Program (ECP) ensures that your organization has a road map for employees to follow and provides the basis for your compliance training program. The ECP should include step-by-step procedures to ensure employees know what to do and where to turn for guidance through the complex process of complying with US export regulations.

- This workshop is ideally suited for organizations that are currently exporting and want to do it more effectively.
- Create the framework for an effective ECP that is widely shared, understood, and practiced within your organization.
- Identify the eight key elements of an Export Compliance Program.
- Determine the risks of violating export controls.
- Benchmark your current ECP with best practices.

#### Instructor

Susan Dragotta teaches global business courses in the Business Management, Marketing, and Supply Chain programs at WCTC.

She also facilitates export-related workshops for the local business community. Earlier in her career she was an Export Development Manager with the Wisconsin Economic Development Corporation, helping local companies increase their exports. She also held positions in international sales, with a focus on Latin America.

Ms. Dragotta is a Licensed Customs Broker, a Certified Global Business Professional, past president of the MMAC World Trade Association, and a member of the Wisconsin District Export Council, and the International Compliance Professionals Association.
